EXPERIENCE

Jr. Web Designer · Pixel Invitación

August → September, 2025

Design of personalized digital invitations integrating graphic
resources and CMS. Team collaboration, meeting deadlines
and alignment with the company's design approach.

Main Front End · Profesionalización Virtual

April, 2024 → August, 2025

Design and development of interfaces for systems, websites
and applications. Responsible for UX & UI design, layout, testing
and creation of reusable components and utilities.

Programming Teacher · School MindUp

September, 2024 → February, 2025

Teaching programming and technology classes, focusing on logic,
application development, coding fundamentals and the
use of current technologies, combining theory and practice.

Team Leader & Full Stack · Municipal DIF

October, 2023 → May, 2024

Web project "Integrated Management System": supervision of
the team's code, definition of the project architecture,
database development and implementation of the user interface.

FORMATION

Technical Professional–Bachelor in Computer Science

Colegio Nacional de Educación Profesional Técnica, 2021 → 2025

Academic excellence. Training in AI, technology, networking and
programming. Participation in robotics club, and certifications
in networking and Excel applied to databases.
